

Automatische Kanalballenpresse PRESONA LP100 CH2K mit Vorkammerpresse

Presona baler for compacting cardboard, paper, cardboard, PET bottles, aluminum cans, plastic sheets, household waste, alternative fuels, etc.

Technical specification Press:

- Manufacturer: PRESONA
- Type: LP100 CH2K
- Year of construction: 11/2003
- Use: from 04/2004
- Press force: 100 t
- Specific pressing pressure. 120 N / cm
- Filling opening: 1650 x 1100 mm
- Filling height: 4,485 mm
- Driving power, electric 2 x 45 kW
- Volume capacity, idle: 1170 m³ / h

Press power on:

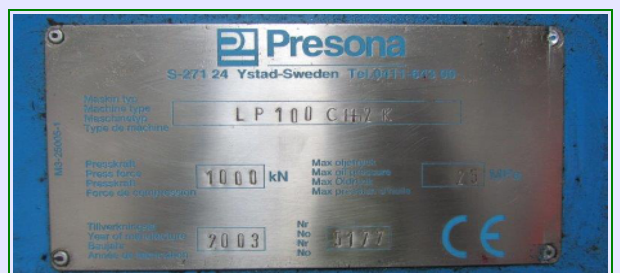

- 30 kg / m³ 12-15 t / h
- 50 kg / m³ 15-18 t / h
- 100 kg / m³ 19-25 t / h
- Machine. Setting time: 5 times prepared for cross lacing
- press chamber volume, max: 3 m³
- Ball size: 750x1100 mm
- Ball Weight: 500 - 725 kg / m³ depending on the material
- Volume of oil tank: 2000 liters
- Cabinet with control
- Total weight: 26,000 kg

Ensures the integrated prechamber press good compaction of PET material and commercial waste.

For the Press there were regular, half-year Inspections by PRESONA Germany

An optional riser is (chain belt conveyor) available

Price negotiable: 81.500,00 EUR, net
Pricing: used - without any warranty, charged from the factory BRD
Terms of payment: 100% before charging
